

PE and Sports Grant 2014-15

The government is providing additional funding of £450 million commencing September 2013 to improve provision of physical education (PE) and sport in primary schools. This funding - provided jointly by the Departments for Education, Health and Culture, Media and Sport – has been allocated to primary school head teachers.

This funding is ring-fenced and therefore can only be spent on provision of PE and sport in schools.

Purpose of funding

Schools must spend the additional funding on improving their provision of PE and sport, but schools have been given the freedom to choose how they do this. A list of possible uses has been suggested.

Lynch Hill School has decided to use the money to:

- Enter into Partnership with Slough Schools Sports Network, to enable staff and pupils to have access to their Sport Program. This package includes staff training and allows children to enter a range of tiered competitions.
- Pay for additional professional development opportunities for Sports coaches and teachers, in PE and sport
- To ensure that PE lessons are adequately resourced to enable good & better teaching (with resources that are differentiated)
- To support and engage the least active children in physical activities
- To enable reluctant pupils to readily participate in PE lessons and increase participation in physical activities
- To use sport as a means of providing mentorship

The impact of the use of the grant will be reviewed at the end of this year.

HOW THE IMPACT WILL BE MEASURED:-

Objective	Measure
High Quality PE lessons	Observations show 90% of lessons are good or better Resources are used effectively to support learning Additional TAs are used in lessons Outcome: 90% of lessons observed have been graded as Good or better with 50% at outstanding. The use of additional TAs has been of huge benefit to the children. Lessons are differentiated and all pupils are able to succeed as they are given the appropriate level of challenge. Our PE assessment data shows that the vast majority of our pupils reach their age expected targets and an increasing number go beyond this in a wide range of sports.
Pupils make progress in lessons (across the Year)	Assessment details show pupils make good or better progress and attainment is in-line with National Expectations. Outcome: New assessment criteria now in place and start and end of unit assessments show that children make good or better progress in all year groups. Data available for 2014-15 for all year groups (1-6) in all sports covered.
Increased Participation in Sports Clubs by reluctant participants	Club registers will be analysed to monitor the attendance of: New participants, girls, boys, Pupil Premium, EAL & SEN. Young Leaders have been used to support clubs and children, Outcome: Greater participation in clubs across the school. We have been able to offer a place in a sports club to twice the number of pupils in KS1 during the course of 2014-15. Clubs are offered to KS2 pupils before and after school each and every day of the week. Our commitment to sport has enabled us to meet the criteria for the Sainsbury's Sports Silver Quality mark. We will now look to gaining the Gold quality mark over the course of the next two academic years.
