

2016 Attainment & Progress Report
End of Key Stage 2 Tests (SATs)

In the summer term of 2016, pupils in Year 6 were the first to take the new end of KS2 test papers. These tests in Reading, Spelling, Punctuation & Grammar (SPAG) and Maths reflect the new national curriculum, and are intended to be more rigorous. Levels are no longer awarded to pupils: rather the tests judge whether Year 6 pupils are secondary ready and a scaled score is given. The lowest scaled score that can be awarded is 80 and the highest is 120. A score of 100+ is judged to be the expected end of KS2 standard. At Lynch Hill, we are very pleased with how well our pupils performed and they should be congratulated for the enormous effort and commitment shown throughout their time at primary school. As you can see, our results surpass both local and national results; so there is much to be proud of.

Year 6 SATs Results 2016 (currently unvalidated)

Standardised Scores	READING	WRITING	SPAG	MATHS
Children at LHS with 100 +	83%	84%	84%	83%
Children nationally with 100+	66%	74%	72%	70%
LHS average scaled score	106	105	105	105
Slough average scaled score	102.1	104.7	Not yet given	103.7
National Average scaled score	103	Not yet given	104	103

Key Achievements:

- In Reading, more children at LHS scored 110+ than any other school in Slough.
- In Writing, more children at LHS scored 110+ than any other school in Slough.
- In Maths, more children at LHS scored 110+ than any other school in Slough.
- When looking at Reading, Writing and Maths combined, 71% of our pupils managed to achieve the expected standard. Only one school in Slough had a greater % of children reaching the expected standard. 18% of pupils managed to achieve what is judged to be a very high score and therefore a high level of attainment across Reading, Writing and Maths.

Progress Measures:

It is also important to look at the progress pupils make between KS1 and the end of KS2 and compare this with the achievements of other pupils nationally: these are called the progress measures. Progress scores will be centred around 0, with most schools within the range of -5 to +5.

- A **score of 0** means pupils in this school on average do about **as well** at KS2 as those with similar prior attainment nationally.
- A **positive score** means pupils in this school on average do **better** at KS2 as those with similar prior attainment nationally.
- A **negative score** means pupils in this school on average do **worse** at KS2 as those with similar prior attainment nationally.

At Lynch Hill, our progress measures for this year are as follows:

- **Reading +4.5**
- **Writing +3.0**
- **Maths +3.2**

These progress scores, along with the % of pupils achieving the 'expected' standard in the tests, means that at Lynch Hill, we are above the Floor Standards or targets set by the government for 2016.
